Fire protective, signal and alarm equipment (L-39)	14847
Socks, Army and Navy; production quotas (M-328, Gen. Dir. 2)	14847

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of materials entering into the production of fire protective, signal and alarm equipment, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3296.1 *General Limitation Order L-39—(a) Definitions.* For the purpose of this order:

(1) "Fire protective equipment" means: sprinkler systems, couplings, playpipes and allied fittings, fire hose,

fire hydrants, fire pumps, hose dryers, hose racks, indicator posts, lightning protection systems, piped extinguishing systems, portable fire extinguishers including back pack types, foam generators, stirrup pumps, water spray nozzles, and all other fire protective equipment for preventing or extinguishing fires, excepting self-propelled motorized fire apparatus and auxiliary units including trailer, skid, front mounted and portable apparatus.

(2) "Signal and alarm equipment" means the following types of equipment:

(i) All types of signal or alarm systems or equipment designed for protective purposes, such as: fire, police and burglar alarm systems, watchmen's time recording systems, intrusion systems, and boundary protection systems, whether such systems are central station, proprietary, auxiliary or local; recording locks; and portable watch clocks.

(ii) All types of paging and call systems (other than intercommunicating systems), such as doctor and nurse call systems and factory paging systems.

(3) "Copper base alloy" means any alloy in the composition of which the weight of copper equals or exceeds 40 percent of the weight of all metal in the alloy.

(b) *General restrictions—(1) Restrictions on use of scarce materials.* Except as provided in paragraph (c) of this order, no person shall incorporate in any fire protective, signal or alarm equipment, or parts thereof, any bismuth, cadmium, chromium, copper, monel metal, nickel, tin, or alloy of any such metals, asbestos, rubber or synthetic rubber, except to the extent permitted in Appendix A.

(2) *Restrictions on foam extinguishers.* No person shall purchase or accept delivery of any foam extinguisher except for use in the protection of inflammable liquids, and no person shall sell or deliver any foam extinguisher which he knows or has reason to believe will be used in violation of this paragraph (b) (2).

(3) *Restrictions on manufacture of alkali metal salt solution (loaded stream) extinguishers.* No person shall in any quarter complete the manufacture of any type of alkali metal salt solution (loaded stream) extinguishers in excess of 25 per cent of the total of such type (irrespective of size) manufactured by such person during the twelve month period which ended November 30, 1941, except to fill purchase orders or contracts from any person listed in subdivisions (i), (ii) and (iii) of this paragraph (b) (3). In determining the number of extinguishers manufactured during the twelve month period which ended November 30, 1941, extinguishers manufactured to fill contracts or purchase orders from, or for delivery to any of the following shall be excluded:

(i) The Army or Navy of the United States, the Veterans Administration, United States Maritime Commission, War Shipping Administration, Panama Canal, Coast and Geodetic Survey, Coast Guard, Civil Aeronautics Administration, National Advisory Committee for Aeronautics, the Office of Scientific Research

and Development, and any other person authorized by the United States Maritime Commission on Form WPB-646;

(ii) The Government of any of the following countries: the United Kingdom, Canada, and other dominions, Crown Colonies and protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia;

(iii) Any agency of the United States Government for delivery to or for the account of any country listed above or any other country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(4) *Restriction on manufacture of soda-acid fire extinguishers.* No person shall manufacture any soda-acid fire extinguisher.

(5) *Restrictions on sale and delivery of signal and alarm equipment.* No person shall sell, deliver or install any signal and alarm equipment (including parts) costing \$200 or more, except to fill the following kinds of orders (Cost is determined under this paragraph by taking the installed cost to the purchaser. If the equipment is leased rather than sold, cost is determined by taking the price which would be charged to the lessee of the equipment if it were installed and sold outright.):

(i) Orders from or for the account of the Army or Navy of the United States, the Veterans Administration, United States Maritime Commission, War Shipping Administration, and any other person authorized by the United States Maritime Commission on Form WPB-646.

(ii) Orders for signal and alarm equipment, the receipt of which has been specifically authorized by the War Production Board on Form WPB-1319. (When granting specific authorization on Form WPB-1319, the War Production Board may also assign preference ratings to the authorized deliveries on such form. Any person receiving an authorization on Form WPB-1319 must notify his supplier by placing on his purchase order or in a letter the following certification in addition to the certification in Priorities Regulation Number 7: "Delivery approved on Form WPB-1319 under Order L-39", and also showing the preference rating, if one has been assigned. The supplier may get delivery of the equipment from his supplier to fill the order, if necessary, by placing the same certification on his order.)

(iii) Orders for equipment, the installation of which has been specifically authorized by the War Production Board on Form GA-1456¹ or WPB-2774. (A person receiving an authorization for this equipment on Form GA-1456 or WPB-2774 must notify his supplier by placing on his purchase order or in a letter the following certification in addition to the

certification in Priorities Regulation Number 7: "Delivery approved on Form GA-1456 under Direction 1 to CMP Regulation Number 6" or "Delivery approved on Form WPB-2774" as the case may be. The supplier may get delivery of the equipment from his supplier to fill the order, if necessary, by placing the same certification on his order.)

(c) *Exceptions to paragraph (b) (1).* The restrictions of paragraph (b) (1) shall not apply to fire protective equipment for use aboard ship, manufactured for, and in accordance with specifications of, the Army or Navy of the United States, or for any other person authorized by the United States Maritime Commission on Form WPB-646.

(d) *Representations on orders from government agencies.* Any purchase order or contract from any person named in subparagraphs (i), (ii) or (iii) of paragraph (b) (3) of this order shall constitute a representation that the conditions exist under which such purchase order or contract may be filled within the terms of this order. Such representation may be relied upon by the person with whom the purchase order or contract is placed and by his subcontractors and suppliers.

(e) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control

and may be deprived of priorities assistance.

(f) *Exceptions and appeals.*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture more alkali metal salt solution (loaded stream) extinguishers than permitted under paragraph (b) (3), (including a person who cannot manufacture any such extinguishers under this order), or who wants to manufacture any soda-acid fire extinguishers prohibited by paragraph (b) (4) may apply for permission to do so as explained in Priorities Regulation 25. The restrictions of this order on delivery and on use of material continue to apply to fire protective, signal and alarm equipment authorized under Priorities Regulation 25.

FEDERAL POWER COMMISSION.

[Docket No. G-605]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

DECEMBER 18, 1944.

Notice is hereby given that on December 13, 1944, an application was filed with the Federal Power Commission by

*Copies may be obtained from the Office of Price Administration.

Consolidated Gas Utilities Corporation ("Applicant"), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate approximately 14,550 feet of 7-inch O. D. pipe line in Cowley County, Kansas, to be used as an interconnection between that part of Applicant's pipeline system located north and east of the City of Winfield, Kansas, and Applicant's main pipeline system which extends from Wheeler County, Texas, to Lyons, Kansas.

Applicant asserts that the supply of gas immediately available from local wells to its system in the area east and north of Winfield, Kansas, is no longer adequate to meet the full requirements of its customers attached to its system in that area;

It is further asserted by Applicant that it is necessary to provide additional gas to augment supplies obtained from local wells to serve the aforementioned area if adequate and uninterrupted service is to be maintained in the vicinity of Winfield, Kansas, and that this can be accomplished by the construction and operation of the facilities above referred to.

Applicant, in support of its request for a certificate, states that it is imperative that the construction commence as soon as possible in order that it be completed and placed in operation to meet its needs on its system during the 1944-1945 heating season.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 3d day of January, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.
